TESTIMONIALS

Dr. Mallory McCoy

"I purchased a practice that was already in-network with many insurance companies, and I did not want to lose the vast majority of the patients before even meeting them by not going in-network. However, when I saw the reimbursement rates, I was very concerned. Partnering with Dental Advocacy Group was a no-brainer. They helped credential me before I started practicing so I could immediately file with insurance companies on day one. Also, because of the higher reimbursement rates, I do not have to compromise on the quality of my work. I am able to use the materials I choose and labs that I like."

Dr. T. Lance Collier

"I appreciate what Dental Advocacy Group has done, not only for my office, but for my stress levels and my life. Joining Dental Advocacy Group is possibly the best business decision I have made so far."
